

GENERAL BIOSECURITY MEASURES ON THE FARM

GENERAL BIOSECURITY MEASURES ON THE FARM

- Procurement/purchase of animals from farms with a verified health status;
- Isolation (quarantine) of newly acquired animals and animals showing signs of disease (recommended for 28 days);
- Securing entrances and exits against unauthorized access by persons or vehicles;
- Entry of other persons into facilities where animals are housed, and into discharges only with the permission of the owner/keeper of the animal;
- Installation, maintenance and use of a disinfection barrier at the entrance to the facility with animals or on the farm (disinfection barriers are installed in the corresponding side rooms of the facility with animals); if there are no disinfection barriers, it is always necessary to change shoes and clothes before entering and exiting the farm;
- Maintaining lists or records on visitors, means of transport, on the performance of disinfection, disinsection and pest control;
- Accommodation spaces and associated side spaces, as well as devices and equipment, must be such as to allow for regular and adequate cleaning and disinfection and pest control;
- Use of protective clothing and footwear for everyone who comes into contact with animals;
- Regular cleaning and disinfection of buildings and other premises where animals are kept, warehouses of fodder, means of transport, equipment or machinery;
- Proper handling of dead animals and waste;
- Provision of separate rooms or facilities for individual types of animals;
- Regular monitoring of the animals' health status, including recording changes in the animals' health status;
- Provision of regular veterinary care for animals;
- Provision of health-appropriate drinking water and water for watering;
- Provision of suitable feed of known origin, and in sufficient quantity;
- Ensuring hygiene during calving;
- Ensuring hygiene during milking;
- Preventive disinfection, disinsection and deratization on the farm and on means of transport,
- Checking animals' health before they leave the farm or when selling them.
